

SUSTAINABLE FLOORING

WE UNDERSTAND OUR COMMITMENT TO THE ENVIRONMENT

AT DANFLOOR WE KNOW THAT BY OFFERING YOU A RANGE OF SUSTAINABLE CARPETS YOU CAN CREATE BEAUTIFUL INTERIORS WITH A POSITIVE ENVIRONMENTAL PROFILE.

A number of our ranges, including Evolution and Economix, are made from the ECONYL® 100% regenerated nylon fibre and we also have a number of wool based products within our portfolio.

OUR PRODUCTS

ECONYL®
ENDLESS POSSIBILITIES

WOOLMIX

Evolution

The EVOLUTION Collection is a stunning range providing a beautiful foundation for your interior design scheme. The Collection offers a variety of options from subtle delicate designs to bold statement pieces and with an on-trend palette of colours.

PORTLAND WOOL TWIST

The Portland Wool Twist Collection offers natural sustainable performance from the floor up. A soft durable carpet with a range of subtle shades suitable for a number of locations due to its outstanding performance properties.

ECONOMIX

ECONOMIX is an ideal flooring solution for challenging environments that require resilient, hard-wearing flooring with superior performance, without having to compromise on colour and design.

THE WOOL COLLECTION

The Wool fibre which is used to create the Wool Collection is naturally strong, static resistant and fire retardant making it an ideal option for any luxury commercial environment.
