SENIOR LIVING

Sanders Senior Living is renowned in the luxury care sector and has created a desirable new place to live. Focusing on person-centred care, residents will be treated with the utmost dignity, respect and compassion and will be encouraged to maintain their independence and pursue active, meaningful lives amongst friends.

THE AIM

Sanders Senior Living aims to help residents live happily, fulfilled lives in an environment that encourages connectivity and an independent lifestyle whilst also offering residential care for residents that require additional support.

With the assistance and project management from furniture manufacturer Edison & Day the interior design scheme aims to create a home away from home feeling that ensures residents have a gracious and fulfilled life

THE SOLUTION

Set over three floors, The Belmont features a Cinema, Spa Suite, Hairdressing Salon, Cocktail Bar, Exquisite Lounges, Library, Private Dining and Bistro Restaurants.

With the installation of Glaze from the Evolution Collection the home has created a calm and soothing design scheme that not only looks stylish and high end but creates a therapeutic environment that aids with day-to-day activities.

Danfloor's Glaze in colour 350 sets a neutral yet elegant foundation for the interior scheme, which is truly beautiful.

Sam Sanders, Procurement Manager at Sanders Senior Living commented "Our brilliant design team at Sanders Senior Living, along with Edison & Day, have created our beautiful home, The Belmont. Presenting exquisite designs and interiors, our talented teams have chosen designs and furnishings that maintain the highest levels of luxury and comfort, but with residents' needs and quality of life always front of mind. The choice to have a Danfloor carpet is an example of this, providing comfort and a luxury feel for residents, but with a multitude of benefits that aid in providing the quality and high standard of care we pride ourselves on."

THE OUTCOME

The Belmont is exquisitely designed with high-end finishes that promote a home from home feeling. With the installation of a Danfloor carpet the home will benefit from:

Extreme durability – The EVOLUTION Collection is certified to British standard classification 33 "Heavy Commercial Use" enabling it to withstand high volumes of foot and wheeled traffic and intense commercial cleaning, it's therefore ideal for use within care home corridors and communal areas.

Appearance retention – Manufactured using solution-dyed Nylon the EVOLUTION Collection offers a locked-in colourfast system that ensures superior colour and light fastness even when subject to harsh cleaning chemicals.

Spill safe – EVOLUTION has an integral protective membrane, preventing liquid spills from penetrating through the sub-floor, reducing contamination, fungal growth and unpleasant odours.

Antimicrobial yarn treatment – EVOLUTION has been developed to include BI-OME's innovative antimicrobial treatment which is designed to deactivate bacteria and viruses including those that can cause MRSA, E-coli and COVID.

Acoustically Sound Environment - Carpets provide many well-being benefits from providing a more acoustically sound environment; which aids rest, relaxation and facilitates effective communication between staff and residents.
